AGLP
ASEAN GLOBAL
LEADERSHIP PROGRAM

**Leading Innovation
in Global Economic
Recovery**

**CHICAGO
USA**

**18th–22nd
SEPTEMBER
2023**

Lindsey Lyman

AGLP Faculty Director and Clinical Associate Professor of Entrepreneurship, The University of Chicago Booth School of Business

A global climate of disruption has left many firms in a position of vulnerability and rebuilding, while simultaneously ushering a dramatic wave of innovation. To inspire and develop global leaders who will seed innovation amid economic recovery and change, Chicago Booth is delighted to partner with SRW&Co. for the 2023 ASEAN Global Leadership Program (AGLP).

Designed for corporate and public sector executives from a variety of ASEAN organizations and industries, participants will learn from world-renowned Chicago Booth faculty and industry thought-leaders on topics such as globalization, innovation, entrepreneurship, and leadership through the lens of opportunity and uncertainty.

The program will begin with examining disruptive global macro trends. Following, we will explore a framework for building resilient organizations and

a strategic mindset. After setting a solid strategic foundation based in a global outlook, participants will learn tactical innovation tools to discover and capitalize on the immense opportunities that come with rapid global change. At the end of the week, we will explore the evolving expectations of leaders in the current environment, and seed skills to confidently navigate this change. By the completion of the program, participants will walk away with a toolkit of powerful practices to help them, their teams, and their organizations thrive in the current and coming disruption.

For 125 years, Chicago Booth has fostered groundbreaking thought leadership, innovation, and global impact; this tradition continues with the 2023 AGLP. We look forward to welcoming the AGLP participants to Chicago in September and developing leaders that will shape the future of global business.

Meena V. Wehrs

Associate Dean,
Executive Education at The
University of Chicago Booth School
of Business

We're delighted to partner with SRW&Co. to host the 2023 AGLP and introduce The Chicago Approach to business. In today's ever-evolving global business landscape, leaders must hone their analytical skills, adopt a strategic mindset, and lead confidently in ambiguous circumstances. As a global

business school with a presence in the ASEAN region, Booth recognizes ASEAN's integral role in driving innovation and sustainable growth for the global economy. We look forward to providing our frameworks and a world-class learning experience to executives joining us this autumn in Chicago.

Daniel Wong
Chairman & Partner,
SRW&Co.

We are pleased to announce the launch of the 23rd edition of our flagship ASEAN Global Leadership Program (AGLP) in collaboration with University of Chicago Booth School of Business. The bespoke 5-day custom executive education program in Chicago will be held from September 18-22, 2023.

Since 2009, SRW&Co. had the privilege of collaborating with a consortium of global business schools in Europe, USA and China to co-design and deliver a 5-day custom designed AGLP for the senior leaders from the ASEAN countries in both the public and private sectors. The AGLP is premised on 4 global themes of Globalisation, Innovation, Entrepreneurship and Leadership. Each AGLP edition is uniquely designed to deliver topics which are of timely interest and relevance to senior leaders. The design of the program agenda is guided by the global expertise of our business school partners and complemented with SRW&Co.'s rich insights of the client

needs and market demands in the region and based on our successful track record of having conducted 22 editions since 2009.

Over the past 14 years, we had established AGLP to be among the top-rated leadership development programs for senior ASEAN leaders. The fact that we had a growing number of AGLP participants with repeat participation in various AGLP editions speak volume of the quality of our AGLP. Our main challenge is to select the right business schools to work with us in the design and delivery of our bespoke AGLP. In that regard, we are privileged to work with Chicago Booth to co-design and deliver the 23rd edition of our AGLP. Chicago Booth being a top ranked business school had committed to work with SRW&Co. in designing and delivering this important edition for the benefit of our participants.

We look forward to welcoming the cohort of senior ASEAN leaders in our AGLP Chicago Booth edition next fall. See you in Chicago!

Gleacher Center, Chicago, USA

Take Your Knowledge to New Levels at the University of Chicago Booth School of Business

Ideas compete, people collaborate.

Consistently ranked among the top programs in the world, Executive Education at Chicago Booth is where intellectual rigor, engaging teaching, and cutting-edge research meet. We create and learn in an intense, exhilarating climate of discussion and debate. Our executive participants have transformational experiences that turn them into more empowered, impactful leaders.

The Chicago Approach

In this challenging business environment, executives not only need to keep up with trends, but predict them, set them, and know when to reject them. Chicago Booth's renowned Chicago Approach™ develops leaders who can meet these demands and thrive for the entirety of their careers. At Booth, you'll learn not what to think, but HOW to think. As a result, you will emerge a better leader who can apply tested concepts to the issues at hand as well as tackle the unknown challenges ahead.

The University of Chicago Francis and Rose Yuen Campus, Hong Kong

Our Faculty Have Helped Change the World

Chicago Booth has ten faculty members who have won the Nobel Prize, and their knowledge and research help shape our Executive Education programs and data-driven approach. You will gain a modern understanding of markets and organizations at Booth that surpasses all other institutions. It's a distinction we're extremely proud of because it leads to executive development you can count on. There is no better business school in the world to study finance than Booth. Our finance curriculum is taught by the world's leading finance scholars with an unmatched legacy of award-winning research and innovation. Booth faculty have unmatched expertise in finance, data analysis, and analytic methods.

Robert Rothman, '77, London Campus, UK

About SRW&Co.

SRW&Co. will be celebrating its 20th anniversary in 2023. Over the past two decades, the company has grown into a reputable regional management consulting firm with three core businesses in HR Management Consulting, Executive Education and HR Technology.

We leverage the combined expertise and synergy of our management consulting, executive education and technology businesses to provide a full range of integrated people management and development solutions. Our mission and goal are to provide technology driven HR consulting service and product offerings to improve the organizational performance of our clients.

Our consultants in all the three business units have hands-on experience in designing and implementing cost effective and practical solutions, which are being

customized to meet the specific needs and requirements of our clients. We believe the success of our custom designed solutions lies in the effective implementation of the systems and programs that we designed to deliver tangible results and value for our clients.

Finally, we value the long-term relationship and strategic partnership with our clients and business partners to deliver tangible value to our clients in every one of our core service and product offerings. We are committed to our mission in improving the organizational performance of our clients through designing and implementing innovative yet practical and results-driven solutions. We are proud to be able to build a sustainable business after 20 years with our firm commitment to invest in technology to enhance the effectiveness of our product and service offerings.

SRW&Co.
It's the People inside

AGLP
ASEAN GLOBAL LEADERSHIP PROGRAM

 **Profesi.io**
Your Smart People Solution

About ASEAN Global Leadership Program

The ASEAN Global Leadership Program is a custom designed 5-day program focusing on the 4 key themes of Globalization, Entrepreneurship, Innovation, and Leadership.

The first AGLP was launched in 2009 in collaboration with the University of Cambridge Judge Business School in the UK, followed by the Cheung Kong Graduate of Business in China, the UC Berkeley Haas School of Business in the USA, the London Business School in the UK, the New York University Stern School of Business in the USA, and the London School of Economics and Political Science in the UK.

The AGLP provides a learning platform for the participants to address the challenges and opportunities in the ASEAN Economic Community context, while promoting business networking for the participants from Southeast Asia countries.

The AGLP is aimed at those senior executives working in both the public sector and the private sector across industries in the Southeast Asia region who have responsibilities for strategic leadership and for improving their

company's performance. To date, the AGLP Alumni comprise some 400 top executives at the C-suite and Board level in the corporate sector, including policy makers and regulators from the public sector.

In support of the mission of executive education in the Southeast Asia region, SRW&Co. launched the AGLP Scholarship as a CSR initiative in collaboration with the ASEAN Business Advisory Council in 2016. The annual ASEAN Business Awards are conferred by the ASEAN Business Advisory Council to recognize outstanding ASEAN enterprises in various categories, with a spotlight on the promising ASEAN small and medium sized enterprises (SMEs) that have the potential of becoming global

economic players. The AGLP Scholarship is granted to the selected ASEAN Business Awards Winners to attend the AGLP in a global business school. This strategic partnership with the ASEAN Business Advisory Council across the 10-member ASEAN countries is a firm endorsement of the AGLP as a signature leadership development program for the leaders in the ASEAN countries.

AGLP Editions 2009 - 2023

AGLP Chicago Booth Program Information

The City of Chicago

Chicago is an international hub for finance, culture, commerce, industry, education, technology, telecommunications, and transportation. It is the site of the creation of the first standardized futures contracts, issued by the Chicago Board of Trade, which today is part of the largest and most diverse derivatives market in the world, generating 20% of all volume in commodities and financial futures alone. O'Hare International Airport is routinely ranked among the world's top six busiest airports according to tracked data by the Airports Council International. Landmarks in the city include Millennium Park, Navy Pier, the Magnificent Mile, the Art Institute of Chicago, Museum Campus, the Willis (Sears) Tower, Grant Park, the Museum of Science and Industry, and Lincoln Park Zoo.

Booth's Chicago Campus

Booth's Chicago campuses in Hyde Park on the city's South Side and in downtown Chicago are home to our Full-Time MBA, Evening MBA, and Weekend MBA Programs, as well as the North America cohort of our Executive MBA Program. Our downtown Gleacher Center campus is conveniently located between Chicago's two airports and within walking distance of local hotels. It features multiple private dining spaces to facilitate networking.

Travel & Accommodation

Participants will be responsible for the cost of travel, accommodation, and visa. We will recommend hotels within walking distance to Chicago Booth campus. We suggest all participants make hotel reservations early as possible to secure rooms during the program period.

Registration

Applications are accepted on a **first-come, first-served basis**. Early registration is recommended.

Who should attend?

This program is aimed at those senior executives who have responsibilities for strategic leadership and improving their company's performance.

Particularly, this program is very relevant to CEO, members of Boards of Directors, members of Boards of Commissioners, and senior executives who are about to assume top management positions.

The program is applicable for executives working in both the public sector and the private sector across industries.

AGLP Chicago Booth Program Agenda & Synopsis

Note: Program curriculum and instructors are subject to change.

Monday, 18th September 2023

Opening Ceremony & Program Overview

SESSION 1 **GLOBAL TRENDS SHAPING BUSINESS:** *Managing Micro Risks*

Taught by RANDALL S. KROSZNER

The pandemic and geopolitical conflicts will have long lasting impacts on organizations, ultimately changing the face of the economy and society. Executives must navigate these new and uncharted business landscapes. Inflation, recession, sanctions, supply chain disruptions, technological innovation, labor shortages, changing regulation, and climate change will continue to upend traditional frameworks and place new demands on leaders. While these macro shocks are outside of any executive's direct control, leaders nonetheless need to manage these risks. This session examines these disruptive global macro trends and develops a strategic risk management framework for executives to build resilient organizations prepared for such macro risks.

SESSION 2 **INNOVATION UNDER UNCERTAINTY:** *The Power of Strategic Thinking in VUCA Times*

Taught by GREGORY D. BUNCH

You have been called to lead during one of the most challenging periods in modern times. Geopolitics, technology, and society change at a blinding pace. The business models and strategies that worked in the past may not survive. You need frameworks and tools to help you stay ahead. And staying ahead requires thinking strategically making smart bets on the future.

You'll explore why some organizations win and why some lose. This session provides the latest thinking in strategy to gain advantage in highly competitive markets. You'll learn how to remain steady in the face of volatile, uncertain, complex and ambiguous circumstances. And, discover how growth can be achieved despite facing roadblocks. You'll learn how to combine creative thinking with critical thinking to win now.

Tuesday, 19th September 2023

EXAMPLE COMPANY VISIT: ARGONNE NATIONAL LABORATORY

Focus: Tour cutting edge research facilities and learn firsthand how the Lab solves the nation's greatest challenges. Argonne is a multidisciplinary science and engineering research center, where talented scientists and engineers work together to answer the biggest questions facing humanity, from how to obtain affordable clean energy to protecting ourselves and our environment. Born out of the University of Chicago's work on the Manhattan Project in the 1940s, its goal has been to make an impact from the atomic to the human to the global scale. The visit would include an overview of the laboratory and visits to at least two research facilities: the Advanced Photon Source, ATLAS particle accelerator, and/or an exhibit hall telling the story of Argonne's past and present research in nuclear science and engineering.

SESSION 3 **THE FUTURE OF ENERGY:** *Renewable Energy, Green Energy and other new energy solutions*

Taught by Roger N. Blomquist

This session is intended to be a background briefing to provide technical, economic, and environmental perspectives useful for evaluating overall energy strategies and related government policies. The technical content will be high level only, with deeper conversations during Q&A.

Wednesday, 20th September 2023

EXAMPLE COMPANY VISIT: POLSKY EXCHANGE

Focus: Incubator tour and visits with disruptive technology-driven start-ups. Operated by the Polsky Center for Entrepreneurship and Innovation, the Polsky Exchange is a 34,000 square foot startup incubator featuring work and meeting spaces, a state of the art Fabrication Lab, and a full calendar of programming and workshops designed to help entrepreneurs launch and grow their ventures. The Fab Lab, located at the Polsky Exchange, offers entrepreneurs opportunities to transform their ideas into physical objects to share, test and perfect. With a full suite of state of the art equipment to create prototypes and translate ideas into physical objects, the Fab Lab gives members access to tools needed to translate between digital and physical design.

SESSION

4

INNOVATION LEADERSHIP:

Finding your blind spots and seeding disruptive innovation

Taught by LINDSEY LYMAN

Research shows that there are five behaviors that senior leaders of highly innovative companies do disproportionately more often than their less innovative peers. One of these skills is the ability to question and challenge the orthodoxies that guide how their organization operates. The consequence of not questioning leaves organizations sub optimized for growth, or even worse vulnerable to disruption. The ability to see alternative realities can be difficult however, in part due to the neuroscience of how human brains are wired to operate.

In this session we will discover the five management practices that executives should use to seed innovation in their organizations. We will also explore tactical tools that can help leaders identify and question orthodoxies, and in turn set a stronger foundation for innovation.

Thursday, 21st September 2023

SESSION

5

INNOVATION EXECUTION:

Thinking like an entrepreneur and de-risking innovation under uncertainty

Taught by LINDSEY LYMAN

Many of the management practices that are foundational to well-run companies are the same practices that tend to kill innovation. In this session, we will examine why well-run companies so often become victims of disruption. Then, we will explore tools that enable organizations to 'de risk' innovation and make decisions in the absence of reliable and complete data. A heavy emphasis will be placed on exploring how entrepreneurs think and execute in contrast to corporate managers. In looking at this contrast, we will extract a set of tools and mindsets that corporate leaders can learn from entrepreneurial leaders.

SESSION

6

FUTURIST PERSPECTIVE:

Leading in the 21st Century

Taught by ELATIA ABATE

In this interactive experience, participants will immerse themselves in a series of cutting-edge leadership practices designed in and for the Fourth Industrial Revolution to empower leaders with the ability to recharge, recover and restore themselves to higher states of thinking, doing and being in the face of ongoing uncertainty. They will reflect on what the contribution of leadership can and will mean today and moving forward, and will walk away with a toolkit of powerful practices to help them, their teams, and their organizations thrive in the current and coming disruption.

Gala Dinner and Certificate Ceremony

Friday, 22nd September 2023

SESSION

7

MINDFUL LEADERSHIP:

Increase your emotional intelligence to maximize your leadership potential

Taught by STEPHANIE KLEIN

In this highly experiential program, you will gain practical mindful leadership tools, backed by cutting edge neuroscience, to confidently navigate change and drive greater opportunity and innovation. You will uncover more individual emotional awareness, so you can manage stress, build stronger connections and unleash exponential energy, influence and impact.

Program Wrap Up and Lunch

AGLP Chicago Booth Faculty Biographies

LINDSEY LYMAN

Clinical Associate
Professor of
Entrepreneurship

The University of
Chicago Booth
School of Business

Lindsey Lyman is the founder of Growth Studios, an innovation consultancy that helps companies transform how they build new businesses. She consults with leading design firms, consulting firms, large and small companies, and entrepreneurs to identify unique growth opportunities and to build commercially viable new products, services, and business models. Lindsey is an advisor to executives of established companies on the topics of innovation strategy and execution and works with organizations to build innovation capabilities.

Outside of her work in corporate innovation, Lindsey is an active angel investor, board member, and advisor to founders of entrepreneurial ventures. Lindsey leverages her advisory and consulting work to develop current business content and cases for use in the classroom, in particular challenges relating to innovation execution in large organizations and early-stage hurdles when building a new entrepreneurial venture. As an advisory board member of the Alpha Network in Chicago,

Lindsey has a passion for connecting entrepreneurs and helping them build their businesses.

Prior to founding Growth Studios, Lindsey spent 10 years at McKinsey & Company, where she was a founder of McKinsey's global innovation practice and co-developed McKinsey's Innovation Executive Education program. At McKinsey, Lindsey served Global Fortune 100 clients on innovation topics ranging from large scale innovation transformations, to embedding capabilities in user centered design and product development. Lindsey currently serves as a Senior External Advisor to McKinsey, focused on Product Development and Innovation. Prior to that, she was a professional child actor and competitive dancer.

Lindsey holds an MBA from The University of Chicago Booth School of Business, where she graduated with highest distinction. Lindsey lives on the North Shore of Chicago with her husband and four young children. Lindsey looks forward to someday reviving her hobbies of biking, art making, and fabric crafting, however in the meantime center around drinking copious amounts of coffee and building Lego with her kids.

RANDALL S. KROSZNER

Norman R. Bobins
Professor of
Economics

The University of
Chicago Booth
School of Business

Randall S. Kroszner is the Norman R. Bobins Professor of Economics. Dr. Kroszner served as a Governor of the Federal Reserve System from 2006 until 2009. He chaired the committee on Supervision and Regulation of Banking Institutions and the committee on Consumer and Community Affairs. In these capacities, he took a leading role in developing responses to the financial crisis and in undertaking new initiatives to improve consumer protection and disclosure, including rules related to home mortgages and credit cards. He represented the Federal Reserve Board on the Financial Stability Forum (now called the Financial Stability Board), the Basel Committee on Banking Supervision, and the Central Bank Governors of the American Continent and was a director of NeighborWorks America. Dr. Kroszner chaired the working party of the Organization for Economic Cooperation and Development (OECD), composed of deputy central bank governors and finance ministers, on Policies for the Promotion of Better International Payments Equilibrium. As a member of the Fed Board, he was also a voting

member of the Federal Open Market Committee.

His research interests include regulation of financial institutions, international financial crises, the Great Depression, monetary economics, corporate governance, debt restructuring and bankruptcy, and political economy. His paper on managerial stock ownership (with Clifford Holderness and Dennis Sheehan) won the Brattle Prize for best corporate finance paper in the *Journal of Finance*. His book co-authored with Nobel laureate Robert J. Shiller, *Reforming U.S. Financial Markets: Reflections Before and Beyond Dodd Frank* (MIT Press) appeared on the Washington Post's Book World political best sellers list.

Dr. Kroszner is a frequent commentator in the international media. He provides advice to financial institutions, government organizations, and central banks throughout the world.

Dr. Kroszner received a Sc.B. (magna cum laude) in applied mathematics economics (honors) from Brown University in 1984 and an M.A. (1987) and Ph.D. (1990), both in economics, from Harvard University.

ROGER N. BLOMQUIST

Principal Nuclear
Engineer

Argonne National
Laboratory

Roger Blomquist served as a nuclear propulsion officer on a US Navy nuclear powered submarine, where he supervised operation of the nuclear propulsion system, including the reactor, mechanical, electrical, and instrumentation systems, as well as the ship's high pressure air and hydraulic systems. In parallel with his work at Argonne, he served an additional 26 years in the Navy Reserves.

Blomquist has worked at Argonne since he was a graduate student at Northwestern University in the late 1970s. His career has been centered on computational methods in neutron transport and reactor physics, especially Monte Carlo simulations and nuclear data processing for reactor physics computer programs. He chaired the

international Expert Group on Source Convergence in Criticality Safety Analysis, part of the Organization for Economic Cooperation and Development. He did the nuclear design calculations for Argonne's Intense Pulsed Neutron Source Booster Target and has also performed reactor physics analyses of research reactors and commercial reactor fuels.

He currently serves on the Nuclear Science & Engineering Division Outreach Committee, which responds to public inquiries, provides speakers for civic groups, interfaces with university nuclear engineering departments, and maintains the content in the Argonne Nuclear Energy Exhibition Hall. He has also co-taught nuclear energy courses at Northwestern University, UIC, the University of Chicago, and the National Polytechnic University of Armenia.

ELATIA ABATE

Founder,
The Future of Now

Elatia Abate is an entrepreneur, futurist, and educator who created the Future of Now to help humans and companies thrive in the face of inevitable disruption and prepare for the ever-changing future ahead. She has consulted for and advised organizations like Pricewaterhouse Coopers, Uni Group, Verizon, University of Arizona and University of Cincinnati.

Named a leading female futurist by Forbes and recognized as a Global Futurist Speaker by the Transdisciplinary Agora for Future Discussions, Elatia's personal mission is to inspire others to shed despair and fear and instead embrace regenerative resilience when confronted with great uncertainty. She has shared this mission with tens of thousands around the world, speaking at organizations like SEI, NY Life, VRBO, Deloitte, Belcorp and SHRM and gracing the TEDx stage to discuss pioneering the future of work.

Before making the shift to entrepreneurship, Elatia had a successful, international corporate career, serving as Global Director, Talent Acquisition with Anheuser-Busch InBev, the world's largest brewer. There, she led the design of the company's global employer brand and was a co-founder of the company's innovation lab in Palo Alto, CA. She also served as Vice President of Human Resources at Dow Jones & Company where she led global innovation initiatives.

Now when Elatia isn't teaching or speaking around the world, she passes her knowledge on to others as an instructor in the Continuing Studies Departments of The University of Chicago and Stanford University. She received both her BA and MBA from the University of Chicago.

GREGORY D. BUNCH

Adjunct Professor of
Entrepreneurship

The University of
Chicago Booth
School of Business

Greg Bunch draws on a wealth of experience as an entrepreneur, manager, consultant, alderman, and teacher. He is the founder of Masterplan International Corporation, a strategy consulting firm. He was also a partner at Brandtrust, a brand strategy consultancy. Greg co-founded a healthcare software start up in the Bay Area. He has served on corporate boards for financial services, healthcare, retail, franchising and marketing firms.

He works with Fortune 50 companies, family businesses and start-ups in the areas of innovation and strategy. He has

worked with a broad array of companies including Abbott Labs, American Express, Danaher, Dover, ETS, Harley Davidson, Hewlett Packard, Kimberly Clark, McDonalds, PepsiCo, State Farm and Yum! Brands.

Greg was an alderman in the City of West Chicago, serving on the infrastructure, public safety and development committees.

Greg has lectured nationally and internationally on topics related to strategy, creating customers, and innovation. He earned a bachelor's degree from Wheaton College in philosophy and an MDiv from Harvard University.

STEPHANIE KLEIN

Founder,
MindFire Mastery

Stephanie's experience as a 3x Chief Marketing Officer in Fortune 500 firms help her understand the challenges and stress of leading through uncertainty, crisis and organizational change. As a new CMO in 2008, she led her global team through the financial crisis. When she came up for air several years later, she was diagnosed with life threatening breast cancer that opened her awareness to the toll her stressful life was taking on her body, mind and spirit. She realized self-compassion, mindfulness and balance were critical for her healing journey, while opening her up to be a more vulnerable and connected leader, mother, partner and friend.

After leading through the joy and tribulations of a transformative acquisition in 2017, she realized it was time for her to walk away and pursue a more meaningful second act. She began a journey of education and growth that

led her to become a certified Search Inside Yourself Instructor, Executive Coach, Speaker and author. Her disruptive story of leaving the C-suite was published in the anthology Turning Point Moments: True Inspirational Stories About Creating a Life that Works for You (2022). Her book Waking Up on the Right Side of Wrong, about how we can use disruption and mindset to positively change the trajectory of our lives, will be published in 2023.

As an executive coach, positive intelligence and emotional intelligence trainer, educator, speaker and author, she is passionate about empowering elite professionals to thrive through change. She helps them bravely embrace their authenticity, learn to adapt with choice, and stretch with confidence and compassion, so they optimize performance and well-being and build mental resilience to shift from burnout to balance. What lights her up is seeing how inner transformation creates positive outer change, with myriad ripple effects across relationships, organizations, communities and our world.
